Level done!What's the point of this? Entertaining but unfortunately very short game.. Also, I wish there was an option to adjust mouse sensitivity as the default sensitivity is way too high (however I've only tried using a trackpad), making it nearly impossible to draw the line where I wanted it to go.. Also, the retro version is a sad cop-out of making a legitimate pixelated version, it's just a very low-resolution and low-contrast version of the original.. You think that the game hasn't any aces in the sleeve? Well, the first impression can be deceptive!Duck.. The further you go into the woods, the more sophisticated the levels become!Unique art styleEnormous number of levels designed for meditative leisure;Three types of biomes: forest, desert, swamp;Secret objects and levels.
